

## "Knowledge is power"

Knowledge plays vital role in our daily life. Every human being can create better changes in their life with the help of knowledge. In life every power has no longer life, it is lose with passage of time, But knowledge is that power once it is gained it would never be lose. Knowledge enable us to differentiate b/w past and present.

As we over view on the past. There were no such new technologies were available such as Computer, Mobile phone, Machine, equipment, Internet, Automobile etc. people faced huge problem because of lacking knowledge.

They remain unable to make  
Their houses quickly with  
the help of machines, which  
could have save their time.

But unfortunately due to lack  
of knowledge they were <sup>not</sup> able  
to discover new technologies  
which could save their time.

Computerize system which is very  
important for doing work  
immediately which can save time,  
As in the past there was  
no computerize system, which  
could make their works easy  
whenever they used to prepare  
documents, presentations, Applications,  
They always used to prepare  
them writing on hand on  
piece of paper that took  
too much time.

As in the past there was no proper education system where people could gain knowledge and had brought new changes in life. They always remained deprived of basic lacking education.

With the passage of time everything was changing gradually. The education system was highly updated. People became more aware of the importance of the knowledge because of suffering from different problems in life. They started their efforts giving their importance to the education system.

They became so touchable with education. After some time they gained more about this

education. They had realized that "knowledge is power"

In present we can see so many Technologies such as Machines, equipments, Automobiles, internet, computer, that were not available in the past due to lack of knowledge

Presently people who have well qualified. They took so many advantages from knowledge.

### Advantages

- ① They can differ <sup>blw</sup> good and bad
- ② They know how to maintain relationship strong.

③ They are now able how to discover new technologies such as Machines, equipment, mobile phones, Automobile, computer, internet.

④ They became well aware how to spend life according to the roles and laws.

There are so many advantages of knowledge. But yet we got the importance of the knowledge that played important role. we easily differ the life of people in the past and present.

In the past people were suffering from different problems.
