SMOKING IN PUBLIC PLACES HAS TO BE BANNED

The numbers of people who smoke have increase over the years. Although they are equipped with the knowledge of how unhealthy smoking can be, people still choose to smoke. It is a personal choice and a highly addictive habit. Smokers choose to subject themselves to the health risks of smoking. It is not for the government or any third party to dictate whether or not a person should be allowed to smoke. However,smoking does not only affect the smoker negatively. It also affects all the people around those who smoke because when people smoke in pubic the smoke travels everywhere through the air, and the negative effects of this smoke affects all living, breathing creatures. Therefore smoking should be banned in all public places.

People who smoke in public portray a bad example. Children are easily influenced in their growing stages. They imitate the people around them because they cannot differentiate between right and wrong. Therefore they perceive the actions they see around them as the way things should be. Besides that, teenagers who see people smoke in public take it as precedent to start smoking as well. There is a saying that goes “monkey see monkey do,” which tells us that people imitate the actions of others as they see it in their daily lives. Teenagers happen to think that smoking makes a person “cool.” When they see adults doing it on the streets it strengthens their belief in the “coolness” of smoking. Some teenagers think that smoking marks their transition into adulthood and maturity. Hence, more teenagers start smoking due to the influence of seeing other people smoke in public places.

If smoking is banned in public areas, it will promote a healthier lifestyle for everyone. People will see it as a government endorsement for a healthier lifestyle of everybody. This is because by banning smoking in public areas the government sends the message that the government cares about the health of the citizens and that the government discourages people from smoking. Thus, when smoking is not allowed in public areas it reminds people that health care is very important. It reminds each and every person that the government is seriously concerned for the well being of its citizens. Therefore, people would be reminded to live a healthy lifestyle.
