moods and emotion of almost
each and every person is being
affected by this pandemic. So the
customers are also not safe. I strongly
agree that the emotions and
mood of the customer will
be affected by their pandemic
and services shall adjust

In this tough situation,
for maintaining proper relationship
with other companies

long Term vs short Term orientation

Both these concepts are
equally important But for employees
They should keep eyes on long
term orient in covid situation
because in future the structure of
cosinuses can be changed
so employees should focus on
future

Due to covid almost all part
of intilvius are effected and they
not be much satisfied of their
job in this situation. In
bank employees are also
provide their services while

Power distance

by observing
Power distance
conflicts b/w
and subordinates
so by keeping
employees can

in this pandemic
situation helpful
distance
basically avoids
those in power
in power and
Power distance
keep their jobs

2) individualism vs collectivism: we all

know
that covid can easily pass
from one person to another
by close contact. so its better
for employees to run their
business based individualism to
this distance as over crowding
are collectivism can increase
the chances of covid
spreading

Masculinity vs femininity: in this

Paradigm's
situation the employees shall
work together without any kind
act as super because the
consequences will affect both
men and women equally

01 As we all know that covid-19
is a global pandemic and it
has affected almost
every country of the world
and every sector of business we
also know that the disease
is a contagious and
can easily be transferred
from one to another person
in this emergency situation
they provide outline
services by providing outline
work by keeping employees can
distance as way as providing
services for this
we need to provide
stable internet connections
this is not the only
way forward but there
are many other ways
too but according to my
opinion this is the
best one
