

Q no 1

On date 21 April 2020, all employees reporting to work will be screened for respiratory symptoms and their body temperature taken as a precautionary measure to reduce the spread of COVID-19.

Every employee will be screened, including having his or her temperature taken. When reporting to work, employee should report to Peshawar upon arrival at work and prior to entering any other area of property. Each employee will be screened privately by Salman using a touchless forehead temporal artery thermometer. The employee temperature and answers to respiratory symptom questions will be documented and the record will be maintained as private medical ~~report~~ record.

Time spent waiting for health screening should be recorded as time worked for nonexempt employees.

An employee who has a fever at or above 100.4 degree Fahrenheit or who is experiencing symptoms of the virus will be sent home.

The employee should monitor her or her symptoms and call a doctor or use telemedicine if concerned about the symptoms.

An employee sent home can
return to work when.

Subject:- Water pollution in KP/
Peshawar

Respected Sir

Muhammad Ibrahim Student
of Iqra national University. I am writing
to you in order to highlight the
issue of water pollution in our
city Peshawar.

The city of Peshawar is getting
contaminated water from river
Kinal road of bord bazar, The residents
are to be blamed for this
They pollute the river with
garbage, sewage and filth. The
river water is full of bacteria,
plastic, chemicals and other waste
material. It is unfit for consumption.
The people have been demanding a
water treatment plant. The authorities
have not yet responded to the
repeated request.

I request you to highlight
the problem in your newspaper
and arouse public interest. We
all need to get together
in order to get the plot set up
in the area.

Thank you

Yours Sincerely

Muhammad Ibrahim.
