Assignment: Principal
Management

Q: is the decision making in airline business centralized support your answer with logical reason

A centralized filing system is:

- . One in which the records for several people or units are located in one, central location; and,
- . Generally, under the control of a records staff person or in the case of

large centralized filing systems, several people.

Advantages

- . Responsibility is easily placed.
- . Effective use of equipment, supplies and space.
- . All related data kept together.
- . Reduces duplication.
- . Uniform service provided to all users.
- . Improved security

decentralized filing system is:

- . One in which the files are located throughout the office, generally at individual work stations; and,
- . Usually controlled by the person who creates and/or receives them.

Advantages

- . Records located near staff creating and using them.
- . Does not require "extra" space needed for centralized files.
- . Does not require full-time staffing.
- . Staff feels more comfortable knowing they are in control of their own filing and retrieving.

Q1:being visionary leader?how they managing the staff ? FIND OUT HOW airlines maintaning staff salaries?

ANSWER1: Air india visionary leadership can imagine the condition by the following points :

1.read the situation and make plan according to the need

2.find out the crisis in which thing you are having

Q3:based on four skills of management, conceptual, interpersonal, technical, political how will you run air line business?

Based on four skill of management will manage all line by the following points given

Conceptual skills:

Will help me in getting knowledge or ability for more abstract thinking it means that is can think any issue and diagnose different state. It will help me in getting outside the box .

Interpersonal:

In interpersonal skills the whole depends on the manager knowledge and ability to work with people. It is the ability of authority in all line I would have work and motivate employees. The accomplishment of these skills are essential for all levels.

Technical:

These skills help me to attain different techniques to achieve the goal. It cannot be related only to machine but it can also be related to the skills of an employee or authority that is required to increase sales, design and service market products etc.

Political:

In political skills authority have to manage the situation quietly and cooperate with the employees.

Q5: looking at the current situation, how will you apply the six steps, of decision making to cope with the problem?

Answer:

In the current unstable situation who can take following six steps in decision making to cope with the problem that are

1: Corporate with the government by following the sops they have given.

2: the passenger should be covid negative when we are taking them from one place to another that's why pcr test

is done when a person wanted to travels aboard.

3: Pessanger should have six feet distance apart from another so that the virus cannot effect others and so air lines should have scaled the passenger wide apart from oneanother .

4: Mask is compalsury for all the passenger air lines are taking because virus travel through aerosal particle of air .

5:gloves should be weared when travelling any where in the world as the virus if you sneeze or cough the virus

attaches to your hands and can be transfer by hands.

6: If airline have got covid-19 positive un
expectly then the patient should be
bolate till he or she can travel to another
place.
