SEMESTER 04

Section B

subject Database system

Instructor Mam Rimsha Khan

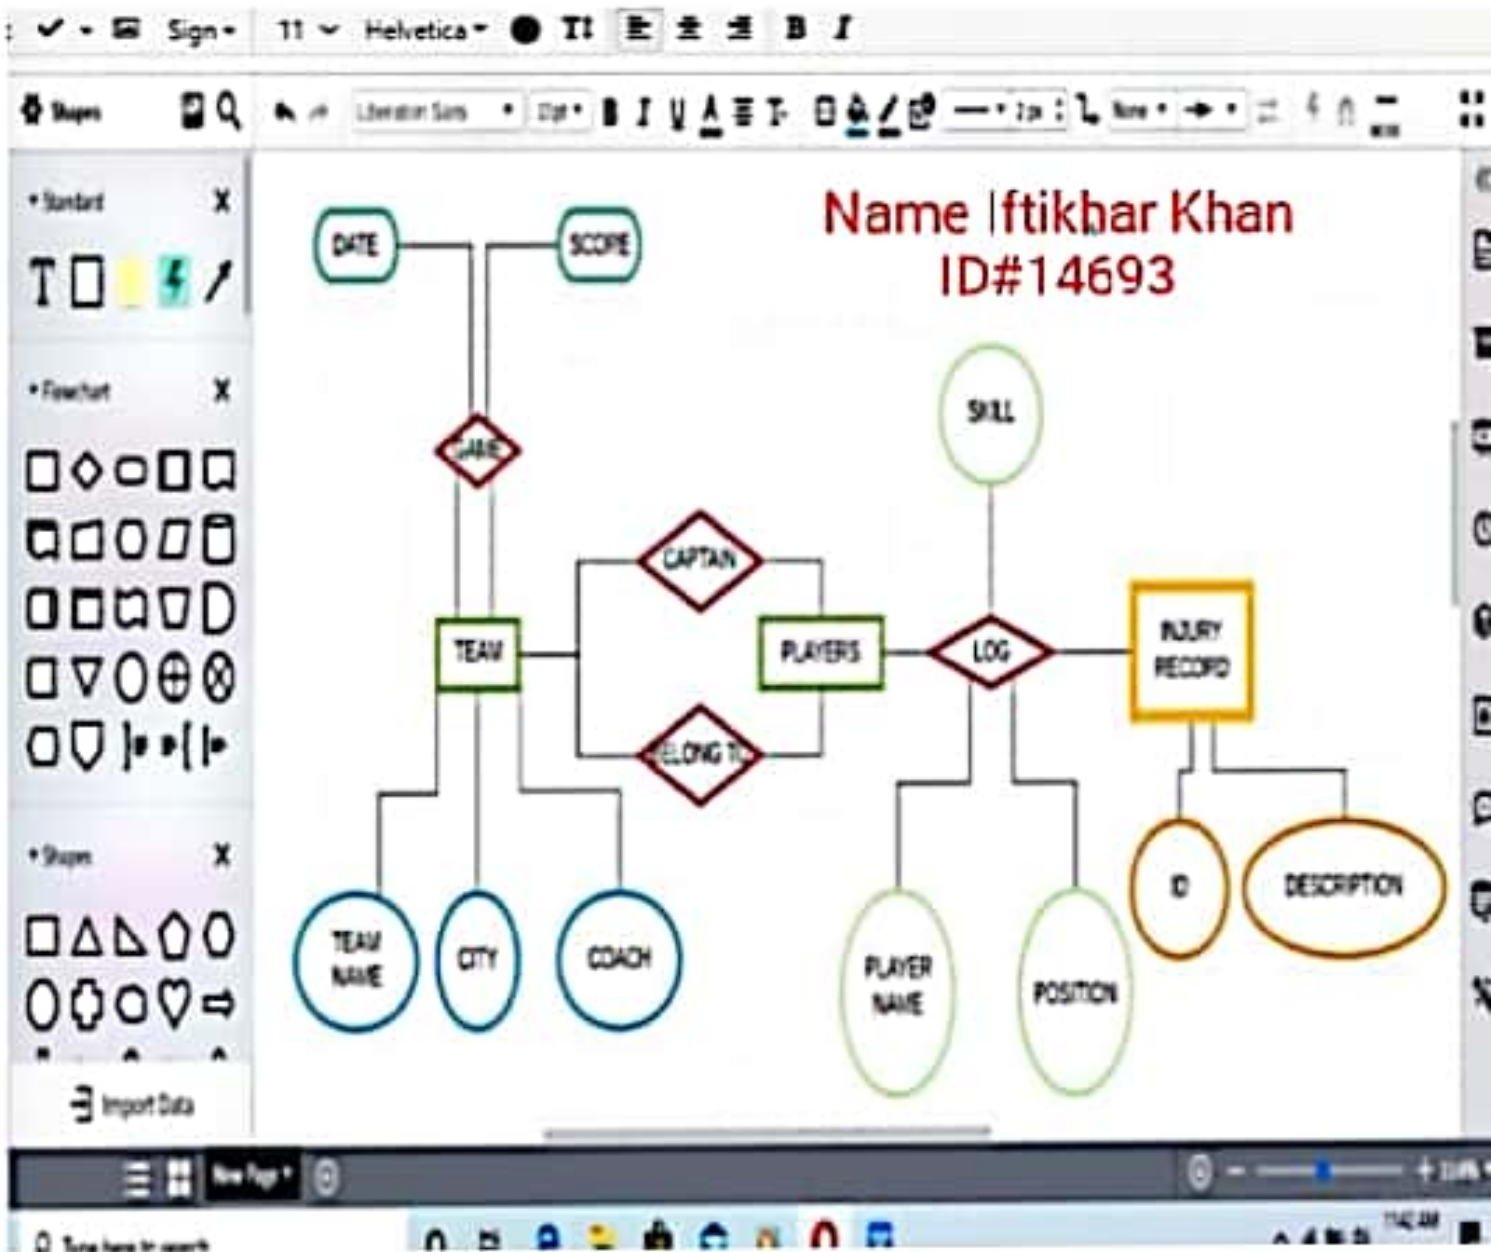

{SESSIONAL Assignment}

Q1: Using the following business rules create your own ERD.

Following requirements for a simple database for the National Hockey League (NHL):

- the NHL has many teams,
- these teams only belong to NHL
- each team has a name, a city, a coach, a captain, and a set of players,
- each player belongs to only one team,
- each player has a name, a position (such as left wing or goalie), a skill level, and a set of injury records
- NHL has an official website.
- The website has a unique URL and title.

ANSWER:

Q2: Now convert the ERD made in Q1 to Rational Model.

ANSWER:
