Q?Effect of urbanization on Peshawar citizen?

Ans:*industry growth which provide job opportunity.

*Access to internet.

*provide health.

*provide good quality education.

*people faces overcrowding by which rent of the houses increase.

*people faces trafic problem.

Effect of urbanization on land and environment?

*decrease of agricultural land

*increase the cost of the land which increase the cost of the houses also.

*land pollution increase.

*Increase water pollution.

*Increase air pollution.

The development is good because it provide facilities to live and provide good quality of education and health.but it is also bad because urbanization lead to increase industry which cause air pollution water pollution and soil pollution also increase the problem of the people.
