Answer "1"

Leaders managing Staff:

It's essential that a leader communicate well with them and inform them about going's - on within the organization.

It's also essential that you courage ~~feet~~ feedback and that your staff feel that they can approach you with any questions or issues they want to address. So making yourself accessible to your staff is critical.

It's important to get to know members of your team individually, not only on a professional level but on a more personal level too.

Encourage creativity and ensure that everyone is clear about what is

expected of them.

A good leader needs to be able to assert their authority and make important decisions for the team.

Your staff will look to you for guidance and inspiration, so it's essential that you set a good example to gain their respect.

Qatar Airways managing staff Salaries.

Qatar Airways is still offering many passenger flights unlike other major Middle Eastern carriers. The drop in international travel due to the coronavirus has resulted in major losses for airlines.

Qatar Airways is deferring payments to some employees to save costs as global airlines continue to take massive losses due to the coronavirus. (News from Apr-21-20).

The airline will defer 50% of the salary for mid-level and higher employees. The airline called it a "temporary measure" that will be reviewed over the coming months based on the global ~~etom~~ economic

Page = 3

Situation, according to the release. He said other employees have taken "voluntary salary deferrals in solidarity with their colleagues."

Qatar Airways is one of the only Middle Eastern airlines that has kept up much of its regular services.

Other Middle Eastern airlines have suspended many, if not all, of their flights due to COVID-19. Other airlines stopped passenger flights, and Emirates is only offering outbound flights to four destinations.

It involves understanding, patience, trust, and genuine involvement in interpersonal relationships. These are interpersonal skills and are necessary at all levels of management for your business.

Page = 7

Management Skills

Airline business this skill acquired and learned ability to translate knowledge into performance. It is the competency that allows for performance to be superior in the field in which the workers has the required skill. Airline business all manager need to possess technical, interpersonal, conceptual, diagnostic, communicational and political skills.

~~Technical~~ Technical Skills

Airline business this skill basically involve the use of knowledge, methods and techniques in performing a job effectively. This is a specialized knowledge and expertise for airline business which is utilized in dealing with day-to-day problems and activities.

Page = 8

Conceptual Skills

Conceptual Skill is the ability to view the airline business as a whole and as a total entity as well as a system business comprised of various parts and subsystems integrated into a single unit. The skill is specially crucial for top level executive who must keep the whole business under focus.

Answer 4:

~~Control~~ Centralized:

Our airline business Centralized Structure keep decision-making firmly at the top of the hierarchy (amongst the most senior management).

Example:

In our airline business use a predominantly centralized structure to ensure that control is maintained over their thousands of outlets.

Advantages:

- * Easier to implement common policies and practices for the whole airline business.
- * Prevents other parts of the airline business from becoming too independent.
- * Easier to co-ordinate and control from the centre of airline services.
- * Economies of scale and overhead savings easier to achieve.
- * Quicker decision making.

Factor influencing Centralization:

- * Size and dispersal of operation.
- * Level of diversity of product-lines.
- * Nature of growth
- * Quality of Executive
- * Management of Exception.
- * Effective control business.

Implication of Centralization:

- * Reservation of decision making power at top level.
- * Reservation of operating authority with the middle level manager.
- * Reservation of operation at lower level at the direction of the top level.

Application of Centralization:

- * Small businesses often operate in a centralized manner simply because of the smaller size of their workforces.
- * A small business owner may be the only manager in their entire company, with all other employees reporting directly to the owner.

Answer = 5.

In the current COVID 19 situation all the business are going with large amount of losses. Here we discuss six steps decision making to cope with problem.

= 1 = Identify the Problem.

In COVID 19 try to describe the problem as objectively as possible, as opposed to focusing on the potential consequences or implication of the problem. This can give you a better experience which you are facing in COVID 19 situation.

2. Define and Analyze the Problem.

In COVID 19 figure out what caused of the problem, what the problem is which you are facing in COVID 19, and urgency of addressing the problem. Find out the root of the problem. Look the problem from a different perspective.

3. Generate Potential Solutions.

In COVID 19 relax your brain and come with many possible solution. Be creative and don't concern yourself at this point with how feasible the solution which can fix the problem.

4. Find the solution for parts of the problem.

In the current situation you may need your friends or colleagues to solving the problem step by step. It helps you to find different ideas and see from different point of view, put on a white board helps.

5. Decision Making.

In this phase we solving our problem steps. You want to evaluate the solution you ~~can~~ come up with upper points. That is, how we easily ~~implement~~ implement the solution of the problem in COVID 19.

6. Implement a Solution and Evaluate its Success:

In this point we can choose a solution and implement it in our business. When we choose a solution we check out all the paths of this solution and also choose that solution which may ~~take~~ with low risk and its also compatible with current situation and future goals.
