Date: _____

Page No I

How do other people perceive you? Identify one element of how others perceive you that you are interested in changing. It could be a positive perception or negative perception.

(1) What are the reasons why they formed this perception? Think about the underlying reasons.

(2) What have you done to contribute to the development of this perception?

(3) Do you think there are per... -

(4) Are you sure that your percep... -

(5) Create a action plan about how... -

Ans:- As people know that I am a student of computer science, my name

is Baharuz Alam but when

I help those people who are

illiterate, poor, helpless, they

think I am the humble person

among educated peoples

~~and~~ but when ever stud-

ents sees me they think

I am a foolish and idiot

person and wasting my

Date: _____

time while helping peoples. As usual I apply my knowledge from different angles on different things and see different problems from different angles that's why people love me for the change in their work. As I said that people are with my help because I do search and give them better ideas but when a computer science student belong such a time electricity and internet exist of course they will think that I am wasting my time. Our study is an electronic study if it's about programming or books, may be tutorials. How you can survive in such an environment. I can't make them wrong because a medical student don't have the feelings of a computer science student when there is no internet and an electricity.

Date: _____

Ans:- I:- AS I verbalized that a student of computer science always around you without a book, it look homogeneous to a jost to medico and even analphabetic people additionally. They reason are as follow.

***:-** Because of a computer science student we often use computer to study, we use computer to study because without partics we can't study well. So A computer science student never have a book.

***:-** and one we can't survive without a cyberspace. As i said we use computer for all of our studies it means we can't survive with out it.

Date: _____

*Q: Good if there were not wifi internet or any electricity then we can't study without this we are help less.

*A: Availing poor kids and others in neighborhood. Nowadays people celebrate that if a student avail in free of others he is not keenly intellectual or lets verbalize he is an incoherent boy.

Ans: For the positive perception. I have fix two days to work and avail the people

who are in my neighborhood and for the negative perception of people, I made a DC system for my computer, laptop and bought a router for data sim. However, it's still tough over here but I will perpetuate my pregoindtion.

Date: _____

Ans No 3:- Of course there are perceptual errors in negative but I am additionally damaging my life style and my future by availing an inordinate amount of those people who are genuinely mean. May be they are not nice they are just endeavoring to utilize me.

Ans 4:- Affirmative, I am sure that my perception is precious one because no one ken that how a person is going through their physical appearance. As I mention above that in my circumvent of computer no student of computer science. Everyone do their study from books and when I open my mobile even for reading a book or a slide. They commence

Date: _____

verbalizing against me even to my family.

ANS 5:- How a person can transmit a perception of other even by orchestrating if they don't heedfully actually perceive you. They celebrate, I make excuses. So what I orchestrate is that I will keep these guys near me one day and I will turn on tutorial of coding for them and tell them to keep it in mind and inscribe this code if they do

So I will tell them to make a vicissitude in it. And they will what are the residence of computer science student. I hope my orchestration works.
