Q5. Write an essay on "Dangers of Smoking"

DANGER OF SMOKING

"Smoking cigarettes is like paying to have your life cut shorter."

Smoking is injurious to health. This statement is written on every packet of cigarettes. But in spite of this warning, millions of cigarettes are sold and smoked daily. Smoking is a major health risk, smoking is mostly started at a young age because teenagers think if they start smoking they will be considered as mature. Smokers not only risk their lives but the lives of others who inhale the smoke. When a person inhales the smoke of tobacco, nicotine deposits in his lungs. From where it diffuses in blood and causes various complications. Most of the people smoke for the sake of fun and style but with the passage of time it becomes their permanent habit. Cigarettes poison the body both physically and mentally and also have social effects. Smoking can lead to social problems because it causes bad breath and odorous smell and often isolation. Every time the smoker speaks a pungent smell emanates.

from mouth and towards listener-

Smoking harms nearly every organs of body- Smoking effect on heart and lung in very serious manner - in case of heart nicotine raises blood pressure and blood gets clot easily- In lungs it causes serious diseases like chronic obstructive pulmonary disease (COPD)- Smoking can harm stomach eyes and skin - it can also cause permanent blindness - It make skin to age more quickly and make us look dull and grey- Smoking effect on reproduction and fertility are very serious-

Smoking can cause lung cancer and cancer of larynx.

Cigarette smoking is loss of both health & money - The cigarette companies make their advertisements very attractive and simply trap the young generation- Smoking is bad addiction and as soon as we get rid of smoking its better for us and people around us.
