**Subject** Taking protecting measurement against COVID19

Respected Sir/Madam

As we know that,COVID19 have affected more than 2.7million people around the world.Our country has been suffering from this critical condition and about 10000 people have been affected by this virus in our country. We want to assesst our government in this critical condition. As our majority of population are muslims, so they believe on ALLAH and not taking protective measurement against SARS2,because They are in the openion that ALLAH almighty will protect us from this virus without any protecting measurement against it.

People in our areas are not taking this pandemic seriously because they are not briefed about it's sign,symptoms and negligible treatment . Most of people have not stoped gathering and group prayer .Some peoples comes out of their homes without mask and gloves which may protect them from foreign pathogens and especialy of PANDEMIC which have no treatment. During their greeding they shake hands with each others. Most of people not keeping social distance. They are performing defferient kind of social activities like wedding and birth day parties,seminars,etc. They are also playing cricket and football in the present of a huge crowd.

On the other hand as most of our people are illiterate and not following the safety rules and instructions of health department which may protect them from this virus. I requested to the health department to provide the protecting facilities like Mask ,sanitizer and gloves. If the health department doesn't take any serious action against them,so it may lead to a dangerous situation
