- b. Parents are our first and most important teachers. Describe a specific valuable lesson from one of your parents
- c. The way I spend my lockdown during Covid-19..

**3. Read and Summarize the following Passage in your own words . /10 Marks**

Health' is a state of complete physical, social and mental well being and not merely the absence of disease or infirmity. Health is thus a level of functional efficiency of living beings and a general condition of a persons mind, body and spirit, meaning it is free from illness, injury and pain. It is a resource of everyday life and a positive concept emphasizing physical capabilities.

Good health is a secret of every happy man. There is an old saying, 'Health is Wealth'. Staying healthy for children is vital for proper growth and development of mind and body as they need to focus in the class and fully participate in the activities on the field. Parents must take their children for medical

check-up and learn from experts about their development in terms of height and weight, as it has a huge impact on their overall performance and efficiency. If you are strong and healthy, you can be a shining example to others and teach them how to achieve vibrant health.

Good health is a matter of great concern, to maintain it, healthy living and a disciplined life is a must. One of the best ways is to drink plenty of water as it reduces the risk of infection, keeps your skin healthy, reduces the risk of heart attack, burns body fat and regulates our body temperature. We should sleep well as it relaxes our body and reduces stress. We need to have a balanced diet and go for long, brisk walks. Our motto should be to keep our body clean in order to remain healthy. We must laugh more as laughing is a therapy and a secret of good health. The government should include integrated health programs into their public policies and control specific health problems.

## (👉 ° ° )👉 **STARTING THE NAME OF ALLAH**

**Q No1: Write Short Notes.**

**Ans: Three Steps of Essay:(A)**

**I. Analyze the essay prompt**

- ❖ **The most important step in writing an essay or research paper is to fully comprehend the essay question.**

**II. Create a thesis statement**

- ❖ **Start your essay with a thesis statement that will guide your entire paper.**

**III. Make an outline**

**the Covid 19 article of Doctor Amjad Wazir to be published on mashriq News paper.I helped him with getting some facts from News article and he gave his research biology, medicine and virology. The Covid 19 cases were about 70,000 that day, which is much less than what New York State has today. The very next day WHO in a Press Conference declared Covid-19 a pandemic. Just a week later the cases doubled to 140,000 and as I write this article, the cases cross 1 Million in total. Just after the holiday was declared I was in chill mode, I spent the first few days like there was no college ever after. I watched a lot of Youtube video. I also restarted**

**playing Computer which I didn't do for a very long time. For a week I and my brother were alone at home. Only after the lockdown was declared by Pakistani government my mom and dad stayed at home. Here are a few things which I did and some I continue to do. I am not a tutor. I love teaching! I am just teaching my brother who just got his 9th std results and got 10th std books. My mom didn't want to keep him idle, so she asked me to look after his studies especially Social Science because he is doing Byju's program for science and maths. Also, Social was my favourite. I began teaching history, considered to be the toughest and boring. I taught him**

**Ashian Nationalism and how countries were formed in Ashia. Soon after that, I started teaching Pakistani Nationalism and later on Political Science- Power Sharing and Federalism. Soon after, the lockdown was extended till 15 July my mom asked me to teach him maths and science as well. So I began with Chemistry- Periodic Classification of elements and started Organic. I really love Organic Chemistry. Physics I taught Light- Reflection, Refractions, Lenses and Mirrors. Without wasting time I also covered Linear Equations in two variables and Real Numbers. I play games in home .It sounds weird but something I put down just because I didn't have enough**

**time. I restarted playing Euro Truck Simulator 2 where we drive trucks across the Europe-I love that game as I love travelling and I love roads.Networking miss just in the first week itself gave two assignments. Soon after that each teacher like competition, are keeping on sending assignments. Algorithms, we are asked to do one short assignment every day. Also have SEPM, Web, Mobile Computing and Networking assignment as well..I really missrestaurant food now, it has been more than a month since I am eating only homemade food. My parents didn't allow to eat outside food starting from 13th March. I curse myself for ignoring a lot of**

**performance and attitude of living beings. This means that the disease is free from injury and pain. These are a feature of everyday life. It's a positive concept of physical abilities. Good health is a secret of every happy man. Our elders have an old saying. 'Strong is wealth' For proper development of brain and body, it is very important for children to stay healthy. You can be a shining example to others and teach them how to achieve dynamic health. Maintaining health, a healthy life and a life of discipline are essential. One of the best ways is to drink plenty of water One of the best ways is to drink plenty of water as it reduces the risk of infection, keeps your skin healthy, burns body fat and reduces the risk of heart disease. We should sleep well. Which regulates our temperature. We should laugh more.**

**Because laughter is the secret of goodness. The government should include integrated health programs in its public policies and address the issue of austerity.**
