ASSIGNMENT TOPIC

POVERTY

We can define poverty as the condition in which the basic needs of a family, like food, clothing, and education are not fulfilled. It can lead to other problems like poor literacy, malnutrition, etc. A poor person is not able to get education due to lack of money and therefore remains unemployed. An unemployed person is not able to buy nutritious food for his family and their health declines. A weak person lacks the energy to look for a job. A jobless person always remains poor. Thus we can say that poverty is the root and cause of other problems.

:Causes of Poverty

Poverty is not natural, it is man-made. The above statement is the causes of poverty are generally man-made. There are various causes of poverty but the most important is population. Rising population is putting the burden on the resources and the earning of countries. Governments are finding difficult ways to provide food, shelter & workers to the rising population.

The other causes are lack of education, natural disaster, lack of employment, lack of infrastructure, political instability, etc. For instance- lack of employment opportunities makes a person jobless & he is not able to earn enough to fulfill the basic necessities of his family & becomes poor. Lack of education compels a person to take low paying jobs & it makes him or her poor. Lack of infrastructure means there are no industries, banks, etc. in a

country resulting in lack of employment opportunities. Natural disasters like flood, earthquake also contribute to poverty.

Main points:

1: warfare

2: Back to agricultre

3: Natural diseaster

4: Centralization of power and corruption

5: Environmental degradation

:Government Measure to Stop Poverty

The government of pakistan also took several measures to stop poverty from pakistan. Some of them are creating employment opportunities controlling population, etc. In pakistan, about 60% of the population is still dependent on agriculture for its livelihood. Government has taken certain measures to promote agriculture in pakistan. The government constructed certain dams & canals in our country to provide easy availability of water for irrigation. Government has also taken steps for the cheap availability of seeds & farming equipment to promote agriculture. Government is also promoting farming of cash crops like cotton, instead of food crops. In cities, the government is promoting industrialization to create more jobs. Government has also opened Ration shops. Other

measures include providing free & compulsory education for children up to 14 years of age, scholarship to deserving students from a poor background, providing subsidized houses to poor people, etc.

Main causes to stop poverty

The best pathway out of poverty as well paying the job.

The government should invest in job creation strategies such as building etc.

And making other common sense investing that create the job.

Revitalize neighborhoods and boost our national economy.

We cant make a our habit to work and found a money for our self we cannot make a our habit like beggers it's the possible way that we stop poverty.
