

Name Zia Ur Rehman

ID 11473.

Assig # 2.

Communication Skills:

Reading Skills:

i) Active Reading Skills:

Active Reading allows to remain engaged in the text by using strategies such as read aloud/think aloud, clarifying, summarizing, highlighting and making predictions. By using these strategies, students will stay focused on what they are reading and increase their ability to comprehend the material.

Skimming and scanning are reading techniques that use rapid eye movement and keywords to move quickly through text for slightly different purposes.

Skimming is reading rapidly in order to get a general overview of the material. Scanning is reading rapidly in order to find specific facts.

Careful reading:

Careful reading refers to different operations where the reader attempts to extract complete meaning within or beyond sentences right up to the level of the entire text so as to construct the text macrostructure.
