Ans 2 "Mutuality" is the most effective type of Doctor-patient relationship.

Because in this type of relationship the Doctor play an important role by acting as like the friend and empathize of the patient.

So by doing this the patient can give very effective history to the doctor. In. of Doctor-patient relationship the history of patient is very important because it is thought that effective treatment is depend on history taking.

- In this type patient and doctor are not bored, being like a friends.
- Both parties are active, so exchanging of ideas and opinions will be occur which is very helpful for treatment.
- Also the patient follow the guidelines and preventions.

Ans (4) Case Presentation:-

Being a dental technologist first of all I try to reach its mental health by knowing its behavior.

For this I do some actions like asking ~~this~~ his/her name, place, profession, education, marital status.

- So for decreasing his/her stress or fear :-

→ Introducing myself and SOP.

→ By which medium he/she come their  
(car, bus, bike)

→ Asking an open ended questions like "how are you feelings now".

→ How see our clinic.

→ Becoming more friendly and explain everything friendly.

→ Making its confedense by saying "Masha Allah you are so much strong and brave"

→ Reducing his/her pain by asking how I can help you to become relaxed.

⑥

→ Showing more empathetic feelings and actions.

→ Lighten his/her mood by asking his profession, people of their areas, famous thing of their place etc.

→ Trying to be patience and absorb my feelings, and putting myself in place of him.
