Q. No - ①

①

*- what are the goals of Paper? what big picture, Practical question is highlighted and what more focused research question is addressed?

Answer! ✓

The goals of the Paper are to find about the differences of HR managers and rest of the leaders in Company, if we talk generally than in this Paper researcher have checked and analyzed that the HR Manager is more concern than other regarding the development of people working in organization better place for all. this is observed that HR manager all the time trying to make the organization to build the positive Relationship between others in Company and anyone is fulfilling the Responsibilities in right way.

(2)

Q No - (2)

* - So what? Why is this research question important and why should anyone care?

Answer ! ✓

During the research "So what" is the important question, which asked and researcher tries to answer it during research. Researcher is basically find the facts and figures under this question. and to give the Real information of their research.

③

Q No - ③

* - What do we already know about this research question based on past research?

Answer ! ✓

We know from previous research question that good question. good researcher begins with the good question and trying to answer them till he completes his research. initially, when you have a topic to work on it the second step is to make questionnaire to work on and complete your research.

(4)

Q No - (4)

* - What is the theoretical foundation of the research question?

Answer! ✓

The theoretical foundation is the knowledge based on which the research question is made, it's important that you must have a strong grip on your topic and through which you try to make good questionnaire on which basis later you will complete your whole research.
