

QND #3 : Please write in detail what you have learned during the course and how did your job or experience in relation to your course?

Ans: The course "Research Philosophy" is in relation to my job or experience because The 'philosophy' means "love of wisdom" in greek and 'Research' is known as studying to learn or learning something in very detail, so i always found myself to study everything i came through with all my heart and in detail.

→ What i learned from the Course:-

Throughout all the semester in the introduction to academic Research Philosophy i learned a great deal about research we covered a wide variety of topics and the most important thing i learned about myself. throughout
