

NAME :- Muhammad Shahab Khan

ID :- 16068

SECTION :- A

SUBJECT :- ARCHITECTURE AND TOWN PLANING

DEPARTMENT:- Bs (CIVIL ENgineering)

SUBMITTED TO :- ALINA BABAR

TAST NO 1 :-

SOLUTION NO 1 :- population is growing,hospital and school are overburdened,traffic is congested,pollution(including that in water supply) is increasing,and solid waste and sewerage management are poor.The current urbanization of the peshawer valley is being accelerated by three kinds of in-migrats.There are those who migrate from rural areas of KP And FATA for better economic opportunities,those that arrive for access to social services,and those forced migrants that flee militancy or political persection. Poor air and quality, insufficient water availability, waste-disposal problems, and high energy consumption are exacerbaded by the increasing population density and demands of urban environments. Strong city planning will be essential in managing these and other difficulties as the world's
