Question no 1

The app which I am going to explain is **Google Maps**

- It is an android mobile app.
- In this app we can explore exact ways and location even all over world.
- Once I was travelling to Islamabad and I was lost in sectors and couldn't get the right way so this app helped me a lot.
- I think if someone, face difficulties so may be its network connection not working because this app doesn't work offline.
- If we have no network of mobile data so this app is useless.

Part # 2

The app which I am going to explain is **Sound Cloud app**

- It is a mobile app
- In this app we can listen music, and also follow our friends so we can get their music library
- In this app all language music are available, but there is no option of download, firstly you have to listen the music and then it will be downloaded and after 10 days it will again deleted.
- They can put the download button, so it will make very easy
- May be will using some third party software from where we can download music
