Q No (01)

Write a letter to the editor of an English newspaper expressing your views on opening educational institutions in the wake of COVID-19

Sagib Ahmad

Tinda Saddle Isurran Agency.

Date: 23 Sep 2020

Mr. Shah Khan (Editor of English Newspaper)
Main City Office of English Newspaper

Respected Sir!

I hope you will be good and well. I want to tell you that a few days ago government announced to open the educational institute but the COVID-19 is very danger for the life. The disease is a little control. So Sir I said to you write a column in the newspaper about it. That "How we could safe ourselves from this disease."

Write in own column of prevention of COVID-19 in institutes. And give good following guidance to the students and teachers in your column of newspaper.

3

- Try to avoid touching your nose, eyes, mouth with hand
- To wash your hands with soap and water for at least 15 second before and after meals.
- Do not join hands Together
- Sitting at one meter away from one another
- Use the sanitizer in class room

So please write a column about it. I shall be very thankful to you

Sincerely.

Q/No (02)

Write a short research proposal highlighting your research topic (what), research gap (why) and research methodology (how).

Coarse Aggregate:

The coarse aggregates are a construction component made of rock quarried from ground deposits. Examples of these kinds of ground deposits include river gravel, crushed stone from rock quarries and previously used concrete. Coarse aggregate are generally categorized as rock larger than a standard No.

The coarse aggregates are using in buildings, roads, etc. I am also the student of the civil Engineering. So I understand better the coarse, fine aggregate. So that why I select the coarse aggregates that what is the strength of the different aggregate. We use the different coarse aggregate first we find the strength of it and then we use it.

First we take the coarse aggregate then we crush it with the specific tools and then then pass it through the specific No of sieve and then we find the percentage of the

5

passing are retained aggregate.

Write an essay on Rapid Bus Transit (BRT) service in Peshawar. The introduction of your essay should contain thesis statement and background information and the body of your essay should provide evidence in support of your thesis statement. Your essay should also contain an effective conclusion.

Introduction:

The Peshawar Bus Rapid Transit (BRT) project was announced with the intention to relieve residents from many of their day-to-day traffic woes. But as work continues some have begun to wonder whether the scheme is causing more problems than solutions and if in the end it would be minister for local government Shahram Khan Tarakai told The Express Tribune that the Peshawar BRT is a gift for the city and the province which is why it was inaugurated on Pakistan Day.

Background Information:

Peshawar Bus Rapid Transit (Peshawar BRT) is a bus rapid transit system in Peshawar, capital of Pakistan Khyber Pakhtunkhwa (KP) province. The Peshawar BRT system consists of two parts the first encompasses an east-west corridor served by 32 stations on a dedicated lane for exclusive use by buses, while the second part contains of a

(7)

network of feeder routes in which buses can enter and exit the system to travel on city streets

The system was inaugurated on August 13, 2020 and is the fourth BRT system in Pakistan.

Peshawar's east-west growth axis is centered on the historic Grand Trunk Road that connects Peshawar to Islamabad and Lahore

Buses - Trans-Peshawar was originally planned to use a fleet of 955 buses of which 155 will be 12 meter-long buses while 65 will be 18 meter-long articulated buses

Conclusion

So the BRT is very good for the local peoples and as well for the students because there is a lot of facilities in the BRT Peshawar like Wifi, wider seats etc

Q No (05)

You are going to make a presentation in a seminar. How would you prepare yourself to deliver an effective presentation on your research work?

→ Show your passion and connect with your audience. It's hard to be relaxed and be yourself when you are nervous. The great presenters say that the most important thing is to connect with your audience and the best way to do that is to let your passion for the subject shine through. Be honest with the audience about what is important to you and why it matters.

→ Focus on your audience's needs.

Needs to be built around what your audience is going to get out of the presentation.

→ Keep it simple: concentrate on your core message. When planning your presentation, you should always keep in mind the question: you should be able to communicate that key message very briefly.

→ Smile and make eye contact with your audience.

This sounds very easy, but a surprisingly large number of presenters fail to do it. If you smile and make eye contact, you are building rapport which helps the audience to connect with you.

(P) (11)

and your subject, it also helps you to feel less nervous, because you are talking to individuals, not to a great mass of unknown people.

→ Start Strongly:

The beginning of your presentation is crucial. You need to grab your audience's attention and hold it. They will give you a few minutes grace in which to entertain them, before they start to switch off if you're dull. So don't waste that on explaining who you are. Start by entertaining them.

→ Tell Stories:

Stories help us to pay attention, and also to remember things. If you can use stories in your presentation, your audience is more likely to engage and to remember your points afterwards. It is a good idea to start with a story, but there is a wider point too: you need your presentation to act like a story.
