

Dear Sir

Kindly requested that I did not do the Assignment of Microprocessor and Assembly Language because in FATA (KHYBER AGENCY) there is no access to the internet I informed an hour ago and did the DLD assignment but have short time left for Microprocessor and Assembly Language assignment.

On the Paper day I go to Phase 3 chowk and there I solve the paper and submit then come home back and I have taken the previous FINAL TERM exam like there in Phase 3. I swear there is no access to the INTERNET in KHYBER AGENCY.

Very big issue for us

Sincerely

Miandad Khan
