TO SIR SHAHAB UL ISLAM

FROM MUHAMMAD INZEMAM

BS SOFTWARE ENGINEERING (6)

ID # 13969

DATE 14/06/2020

For the product you find easy to use, describe or answer the following (each in a few sentences):

• **What is the product?**

Ans:- My product is from Google's side, as google has tens of products the easiest product to use is that of their search engine.

• **What task does the product perform?**

Ans:- It is used to search about everything that can be related to our daily lives if that is regarding studies, suggestions, or you want to know about whatever you want to have knowledge about.You can also search phrases in Google's search engine.

• **Present one way in which this product is easy for you to use.**

Ans:-It is simple for me to use because you just have to open browser type www.google.com.There will be a box under the logo of google just type your keyword and press enter.You will have all your possible searches and articles about that topic.If you type your word with the wrong spellings it will automatically correct it.

• **How would someone else find this product difficult to use?**

Ans:- Probably everyone will find it easy except those who have not been used to the internet or browser.

• **How could this difficulty be resolved?**

Ans:- Just by giving them a training for some minutes, a weak learner can learn it in less than Five (05) minutes.

For the product you find difficult to use, describe or answer the following (each in a few sentences):

• **What is the product?**

Ans:- OMEGA 12V inverter.

• **What task does the product perform?**

Ans:- t has dual functionalities that can be used as an inverter and also can be connected with a solar panel.

Simulated sine wave inverter.

Sensitivity Selector.
