Health' is a state of complete physical, social and mental well being and not merely the absence of disease or infirmity. Health is thus a level of functional efficiency of living beings and a general condition of a persons mind, body and spirit, meaning it is free from illness, injury and pain. It is a resource of everyday life and a positive concept emphasizing physical capabilities.

Good health is a secret of every happy man. There is an old saying, 'Health is Wealth'. Staying healthy for children is vital for proper growth and development of mind and body as they need to focus in the class and fully participate in the activities on the field. Parents must take their children for medical

QN.2. Essay

Ans. Smoking in public places has to be banned

Essay about Smoking Should be Banned in All Public places .

Every year thousands of people die because of having cancer or other tobacco related illnesses due to smoking. Smoking is seen everywhere from our own television screens to even the world wide web; the internet. Tobacco is the substance that is in the cigarettes. These tobacco products are promoted through tobacco ads that are found almost everywhere you turn. They are in magazines, television screens, on the internet and even on cigarette boxes themselves. Alas, their tobacco ads do not tell the whole truth. Thus, many people fall

prey to these tobacco cigarettes and once they try one cigarette, they are hooked on it. The reason this is so. Thus, I strongly feel that smoking should be banned. Secondly, smoking does not harm the environment and pollute it. In addition, it is a fact that our planet has air pollution and it can help to continue to harm the planet. Environmental tobacco smoke (ETS) contains more than forty substances that are known to cause cancer in human beings or even animals. Sometimes people think that its just a few smokers emitting smoke into the air but they do not realize that it is not only happening where they live. They have got to apprehend that this happens from people all over the world and when it is taken step by step, it does impinge on our planet. In 1995, about 18 million children under 10 years of age lived in areas with air quality that did not meet federal standards. Just think about all these innocent people that these smokers are hurting. This shows that smokers do not even know or bother about the consequences that their smoking brings. I think the only way that they would become conscious of this is if smoking is banned in all public areas. Another thing is that if smoking was to be banned in all public places, it would force these smokers to smoke lesser and to eventually quit smoking. Smokers would then grasp that they can only smoke in a particular area that is private and personal; like their own rooms

QN.3

Ans. Good luck is a great gift from Allah Almighty. Strictness is a condition of mental health. Exercise is very important for good fitness. Strictness is also a defect in the practical performance and attitude of living beings. This means that the disease is free from injury and pain. These are a feature of everyday life. It's a positive concept of physical abilities. Good health is a secret of every happy man. Our elders have an old saying. 'health is wealth' For proper development of brain and body, it is very important for children to stay healthy. You can be a shining example to others and teach them how to achieve dynamic health. Maintaining health, a healthy life and a life of discipline are

essential. One of the best ways is to drink plenty of water One of the best ways is to drink plenty of water as it reduces the risk of infection, keeps your skin healthy, burns body fat and reduces the risk of heart disease. We should sleep well. Which regulates our temperature. We should laugh more. Because laughter is the secret of goodness. The government should include integrated health programs in its public policies and address the issue of austerity.
