Q1 How do you think the Slum of Pakistan can be improved keeping the economic condition in mind?

Answer:-

Slum:- Slum is a very populated area (over crowded) urban informal settlement (unplanned) poverty by faulty arrangement of Design.

Slum. upgradation method. The Slum of Pakistan can be improved by best method Gradual Improvement method which is best. It is very old method in drainage. You can construct by number wise of house ways (50)

By this method we improve the power living standard Also the basic thing By providing Infrastructure, road Street, cleanwater Proper Dampening access to education

Day: MTWTFSS

Date: / /

The Basic Thing to Provide
good environment Because
everyone has a Right to
leave Best Standard level
If we Provide the Basic
necessary the Status will
be Improve as keep in
mind Pakistan economic
condition which is not
too good But we Provide
Basics. as method we
Show the best method is
Gradual Improvement method.

Q2

Explain The master Plan of Hayatabad (i.e) Form Pattern & structure. Also mention what could have been done during the planning stage to make this master plan better or mention what was done wrong while planning Hayatabad by criticizing it?

Solution:

Pattern Form & Structure

Structure - mean travel route
business area.

Pattern mean ~~the~~ land use
where is agriculture, industry etc

Form. : Form is combination of
Pattern & Structure.

As we discuss The hayatabad
Form, Pattern & Structure

Master Plan of Hayatabad.

In Peshawar Use of the
Use Multiple-nuclei
Theory

The Pattern of Hayatabad is
grid. & Square form will make.

What could have been done during
The Planning Stage.

In Planning Stage that master
Plan is make better
to keep Culture of Peshawar People

① In Peshawar if they
want to developed a town
keep in mind the Culture of
that People. It is totally
wrong and suitable in Islamabad.

② There is no Proper drainage
System which The People
Can suffer.

Specially In rain There is
no System.

(3) Garbage System is also wrong by which the people is disturb.

(4) The Present Sewage treatment Plant at Hyderabad located on main road in Phase-III is causing environmental ~~Pro~~ Problem is full smell and disturbing traffic on main road.

(5) Also clean water ~~is~~ Problem. also colour in water.

These are some Problem which is keep in mind to Construct Before & after.

Q3:-

What direction should a building or a house face? What are the advantages and disadvantages? Explain?

Answer.

In my opinion the best side is north-facing because they get the most direct sunlight through the day especially in winter when the sunlight is at lowest in an urban area where sunlight is at premium

Window and glass door should also face north anywhere between 20° W - 30° E of true north is fine.

→ advantages of north is they get the sunlight directly specially in winter.

→ By more time keep the sunlight the room is warm at night.

Q4 Many Garden Cities have been built around the globe - ... ?

My Selection.

Pinelands Capetown Africa.

Answer:-

Pinelands, Cape Town Africa.

Pinelands in Cape town, South Africa. The initiative is Century Stage was for this initiative century ago.

→ as the International Garden cities has identified was the first realised Garden City in Africa and one the third one ever created. Partly inspired by the realisation that poor housing and infrastructure had contributed.

→ Pine land was build on an 80 acre site

The development was the brainchild of local business tycoon (and later Government minister) Richard Sturtford who put his own money into ensuring the scheme was realised.

→ The Garden City theme was realised by Albert J. Thompson an architect who had worked on the inaugural city of Letchworth in England.

Thompson is responsible for the master plan of created the Pinelands.

→ Pinelands has expanded over time. A subsidiary dedicated to expanding the community was created in 1930 - named Pineland development company.

This entity provided subsidies to help home buyers with 20 percent initial deposits.

→ The aim of this Garden City is to providing better housing and social condition for the residents

" The construction of houses and public building and the nurturing of education equality through providing school halls to redress decades of disadvantages

→ Compare to average suburb mostly Pinelands is relatively safe that is, safer than the average suburb.

→ Pinelands is a horrific hell hole of crime if you need to avoid be aware don't go outside in dark then you are safe and keep in mind the tips in Captown.
