Kind of Essay : Argumentative and descriptive

Topic : Smoking in public places has to be banned and The way I spend my lockdown during Covid-19.

**Essay no 1:**

**SMOKING SHOULD BE BANNED IN PUBLIC PLACES:**

The numbers of people who smoke have increase over the years. Although they are equipped with the knowledge of how unhealthy smoking can be, people still choose to smoke. It is a personal choice and a highly addictive habit. Smokers choose to subject themselves to the health risks of smoking. smoking does not only affect the smoker negatively. It also affects all the people around those who smoke because when people smoke in public the smoke travels everywhere through the air, and the negative effects of this smoke affects all living, breathing creatures. Therefore, smoking should be banned in all public places. I agree that smoking should be banned in all public places because it should not be allowed at all. when people say yes to smoking in public places, they are saying yes to air pollution, higher poverty levels, and most importantly their own death.

People have banned drinking and driving because it affects us but we have done nothing about smoking. Many people are allergic to the smell of smoking and irritates them. In cigarettes packet there are already written” that smoking is injurious to health” but people are not aware of this and smoke it as a routine. Smoking is a most dangerous thing because its damage the lungs of humans.

“Quitting smoking can be a very good test of ones character. Pass the test and you will have accomplished so much more than just get rid of one bad habit.” Some may argue that by preventing smokers from smoking in public, it infringes upon their rights. It is true that smokers have rights and these rights should not be infringed upon. However, a non-smoker’s right to breathe clean air should be taken into consideration as well. When people smoke in public areas the toxic fumes travel through the air and into the lungs of others. Many non-smokers

breathe in the second hand smoke and as a result their health is compromised. If people are prohibited from smoking in public it would be safer for the environment.

Children and teenagers will then have a mindset implemented by the government that smoking is bad. The ban will discourage non-smokers from starting to smoke, thus preventing them from getting addicted to cigarettes. By prohibiting people from smoking in public the government is protecting the Allah given rights of its people to live a full and healthy life. . Therefore, smoking should be banned in all public places.
