Paper Architecture and planning town

Q No 1

ANSWER:-

The Burj Khalifa is also the tallest freestanding structure in the world has the highest number of stores in the world has the highest occupied floor in the world, has the highest outdoors observation deck in the world has the elevator with longest travel distance in the world and has the tallest elevators

Positive :-

=> The Burj Khalifa is a staggering 828 meters (2718.5.71) tall soaring over Dubai. It three times as tall as the Eiffel tower and

nearly as tall as the empire
state ~~building~~. Land end to
end its pieces stretch over a
quarter of the way around
the world. Its cloud piercing
height is certainly one of the
most impressive facts about
Burj Khalifa.

Aside from holding the world
record for being the tallest
building in the world. The
Burj Khalifa holds 311 other
world records.

The Burj Khalifa is also the
tallest freestanding structure in
the world.

⇒ one of the most mind
boggling burj khalifa fact is
how much the materials
weigh. To put things in to
the perspective the weight of the

concrete is equivalent to 100,000 elephants. The total weight of aluminium used in the Burj Khalifa is equivalent to that of five A380 aircraft.

⇒ some Burj Khalifa trivia about the elevators and the building has the longest single running elevator which is 140 floors.

The Burj Khalifa elevator speed is 10 m/sec making the elevator among the fastest in the world.

Negative:

If you are in Dubai then yes it will be worth visiting the Burj Khalifa.

The ticket is so expensive.

It is also dangerous for
earthquake.

Q2 Sketch in ideal single story house, The house should be naturally ventilated and lighting.

=> single story naturally ventilated and natural lighting.

Q3

Ans:-
