LECTURE No 1: INTRODUCTION OF DÉCOR AND ACCESSORIES

Introduction:

Decorative art, any of those arts that are concerned with the design and decoration of objects that are chiefly prized for their utility, rather than for their purely aesthetic qualities.

Ceramics, glassware, basketry, jewelry, metalware, furniture, textiles, clothing, and other such goods are the objects most commonly associated with the decorative arts.

Many decorative arts, such as basketry or pottery, are also commonly considered to be craft, but the definitions of both terms are arbitrary.

It should also be noted that the separation of decorative arts from art forms such as painting and sculpture is a modern distinction.
