

Department of Electrical Engineering

Assignment

Date: 13/04/2020

Course Details

Course Title: Research Methodology for Engineers _____

Module: MS EE _____

Instructor: _____

Total 30 _____

Marks: _____

Student Details

Name: _____

Student ID: _____

Student Signature: _____

Q1.	Choose a research paper (journal/conference) from your engineering discipline (area of interest) that was published approximately five years ago, you may use academic web search or journal/conferences publisher digital libraries. Read the paper and answer the following questions:	
(a)	What are the aims and objectives of this research paper?	Marks 07
(b)	Write down the research question(s) you think the authors have addressed in undertaking this research.	Marks 03
(c)	What are the verification methods and software tools used to accomplish/get the results?	Marks 03
(d)	What are the major conclusions and outcomes of the paper?	Marks 05
(e)	What can be the significant future research directions in light of the selected research paper?	Marks 05
(f)	What is the referencing style being followed in this paper?	Marks 02
(g)	Write reference of your selected research paper in APA, MLA, Harvard, Vancouver, Chicago styles.	Marks 05

Note: Student must attach the research paper he/she has chosen, with his/her answer sheet.
